V2WORKS HIRES MEGAN HARRIGAN AS GRAPHIC DESIGNER

SEATTLE, WA, March 18, 2014 – V2Works, a creative agency with over 20 years of branding and design success, recently hired Megan Harrigan as a graphic designer. Megan will join the existing Brandengineering team to assist in the strategy and execution of a variety of projects, from inspired conception to execution.

Commenting on her new position, Megan said, “I’m very excited to join an already amazing team, and look forward to learning and growing as a designer.”

Megan shows phenomenal strength in many areas of design, including print, identity, packaging, production, and photo manipulation. She also displays a rich enthusiasm in her work and continued growth as a designer. “That type of dedication is hard to come by,” said Brandee Borrer, Senior Art Director of V2Works. “Hiring exceptional people is the key to any successful business and we feel fortunate that we’ve been able to add a talented person like Megan to the team. Our agency has been very busy, and I know she will hit the ground running with great success.”

Upon receiving a Bachelor of Fine Arts in Graphic Design from California State University, Megan enhanced her real-world experience with a decade of freelance graphic design and a senior position at a thriving design shop in South Lake Tahoe, CA, where she specialized in print design, production and pre-press. She is a talented, dedicated and organized designer who thrives in a fast-paced creative environment.

“We are all excited about the talent and experience that Megan brings to the team,” said Troy Turner, Creative Director and Principal of V2Works. “I know that Megan will assist with V2’s continued growth and new endeavors.”

(MORE)

A native of Los Angeles and recent transplant from Lake Tahoe, California, Megan has a passion for the outdoors and can usually found in snowboarding, biking, rock climbing, or playing with her dogs.

About V2Works

V2Works is a full-service collaborative design and branding firm located along the northern shores of Lake Washington in Seattle, WA. In business for over 20 years, V2Works approaches all projects with purposeful research and conceptual rigor that is an integral part of our process.
